

2012 Smarter Schools National Partnership Plan for Hincks Avenue Primary School

Government of South Australia
Department for Education and
Child Development

PURPOSE

The Australian Government Smarter Schools National Partnerships are designed to build the capacity of South Australian schools and contribute to the achievement of the following National Education Agreement Outcomes:

1. All children are engaged in and benefiting from schooling;
2. Young people are meeting basic literacy and numeracy standards, and overall levels of literacy and numeracy achievement are improving;
3. Schooling promotes social inclusion and reduces educational disadvantage of children, especially indigenous children;
4. Australian students excel by international standards; and
5. Young people make a successful transition from school to work and further study.

To support the achievement of these outcomes, Hincks Avenue Primary School is participating in the following Smarter Schools National Partnerships Strategies in 2012:

Key Strategies	Resourcing
<p>The Innovative Community Action Network (ICAN) takes a student-centred, strength-based approach to address complex life issues that impact upon successful engagement with learning.</p> <p>Participating in ICAN means that our young people will have access to individual case management services and customised, flexible and accredited learning programs to support their successful re-engagement with learning and transition to further education, training and employment pathways.</p> <p>As an ICAN school, we can offer a Flexible Learning Option (FLO) enrolment, that can be used to provide an individual case manager and a customised flexible learning program, delivered within our school and/or in the wider community.</p> <p>In addition to a FLO enrolment, our school can apply to access grant funding from the local ICAN area.</p>	<p>During 2011-12, our school had access to \$241,000 that was allocated to service the Upper Spencer ICAN area to develop community partnership programs and provide individual student case management support.</p>
<p>The Student Mentoring and Youth Development program is a school based initiative to support students across Years 5 to 9 who are at risk of disengaging from school and/or not making a successful transition from primary to secondary school.</p> <p>The purpose of the strategy is to increase student engagement, wellbeing and learning achievement through one to one student</p>	<p>Through the Student Mentoring program our school will be resourced to provide one to one student support for learning and wellbeing.</p> <p>In addition, our school may access youth development funding to</p>

<p>mentoring and targeted youth development programs.</p>	<p>facilitate professional learning, programs and initiatives aimed at building the capacity of our school to meet the needs of all our students.</p> <p>In 2011-12, \$480,508 was allocated to Eyre and Western schools to provide support for Student Mentoring and Youth Development.</p>
<p>Learning Together is a program for families with children aged birth to four, that works with them to develop their involvement with their children's learning from birth. The three main elements of Learning Together are adult/child engagement, adult learning and support, and children's involvement in learning.</p> <p>By offering a range of groups and activities for families, facilitated by early childhood teachers, we will engage them in the school community from an early age.</p> <p>Our school is a base program offering a range of activities for families across the week.</p>	<p>Our school is one of a cluster in Whyalla that Learning Together supports through outreach programs. The cluster is supported by an Early Childhood teacher and access to appropriate resources. The pool of funding available in 2011-2012 across the sites is \$181,500.</p> <p>Our school supports this program by providing connections with the leadership team and families with young children as well as a physical space for the program to run.</p>
<p>Participation in the Recruitment and Selection Project provides opportunities for our school to be involved in a range of initiatives, that are aimed at attracting and retaining quality teachers and leaders to our school and other schools in the region.</p>	<p>A pool of regional funding in the amount of \$10,400 has been provided to the Eyre and Western region, this funding has enabled our school to participate in the Supporting, Developing and Retaining Quality Teachers program.</p>
